

RECLAIMING & MANAGING RISK DATA:

The Pursuit of Alternative Risk Markets

Ann Lindner-Little, MedPro Arizona
Morris Jensby, CHG Healthcare Services

Introduction and Overview

- The MedPro story
 - The resources
 - The tools
 - The execution
 - The lessons learned

Gathering Data and Resources

Developing Usable Information

Validation of Data

Securing Leadership Engagement

- Clinical Credibility
- Fiscal Credibility

Developing Actuarial Data

Approaching the Markets

Lessons Learned

Overall Goal:

- Convert clinical and fiscal knowledge to savings for the organization.

The background is a vertical gradient of blue, transitioning from a lighter, hazy blue at the top to a deeper, darker blue at the bottom. A bright, horizontal line of light, representing a sun or moon, is positioned near the top, creating a shimmering reflection on the surface below, which has a subtle, wavy texture.
